

PERCHED KEYS

Where are the keys?

Where are the keys?

There are the keys,

Lying on the grease!

The keys are round and thin,

With the grease being stodgy,

Are exuberant with each other,

For being stationed there!

They compete with each other,

For determining the most elated,

But they aren't truly jolly,

For they stand still there!

GLOSSARY

Stodgy = viscous

Exuberant = happy

Elated = happy

Stand still = motionless
